Press release

## **Latest news and start of cross-country ski season at Forillon National Park**

**L'Anse-au-Griffon, December 2, 2019** – With the help of its team of volunteers, Centre Culturel Le Griffon will once again help skiers discover the charm of L'Anse-au-Griffon Valley within Forillon National Park this winter season. If current conditions persist, the season will begin on **December X**, 2019, and end on March 31<sup>st</sup>, 2020.

The Centre Culturel Le Griffon website, [www.culturegriffon.ca](http://www.culturegriffon.ca), provides all relevant information including ski conditions, which can also be obtained at any time by calling 418-892-0115.

To better meet the needs of skiers from out of town, 3 and 5-day passes will be available for purchase, in addition to the day and season passes.

A new snowshoe/fatbike trail will open this winter between the L'Anse-au-Griffon starting point and the La Vallée chalet. The trail will be finalized in December, and will offer snowshoers and cyclists a breathtaking setting in which they can practise their favourite sports. The chalet at the starting point at L'Anse-au-Griffon will be open daily, as will the Répi-Nord shelter in the La Vallée trail.

Fat bikes can be rented on Saturdays and Sundays between 8 a.m. and 12 p.m. at Café de l'Anse, located at 557 Du Griffon Boulevard, and during the week upon reservation.

These activities are offered thanks to the partnership between Parks Canada and Centre Culturel Le Griffon, not to mention the involvement of a dozen or so volunteers.

Centre Culturel Le Griffon, well-established in the area, is proud to continue developing low-cost activities for visitors and locals, in the interest of keeping the village active and alive.
